- Intissar Romdhane – [Coherence of light and interference: Students' reasoning and historical difficulties](#)
- Margareta Enghag – [Two dimensions of student ownership of learning during small-group work with miniprojects and context rich problems in physics](#)
- Gökhan Demircioğlu – [Developing and implementing teacher guide materials related to the unit 'Acids and Bases' at Lycee-II](#)

**ESERA Conference 2007**

The preliminary programme for presentations at the ESERA Conference 2007 in Malmö is now on the conference website.

There has been a great interest in the conference. Therefore the registration link has been closed. If you have got a proposal accepted and not yet registered please mail the organisers at [esera@mah.se](mailto:esera@mah.se). If you want to register but are not a presenter you can be put on a waiting list by mailing to the organisers. They will contact you if there are any cancellations.

**Science Teacher Education Programmes in Europe**

At the ESERA Conference 2007 Andreas Redfors will chair a round table discussion that might result in an informal network that can continue to discuss science teacher education in Europe. Everyone interested is invited to contribute to the round table discussion by sending, in advance, a 4-page description of their country's or institution's teacher education programme to the organiser at [andreas.redfors@mna.hkr.se](mailto:andreas.redfors@mna.hkr.se).

For more info about this round table discussion use the link for detailed information about the programme on the opening page of the conference website > author: Redfors.

Get direct access to these abstracts by clicking on the title

For direct access to the conference website go to: [www.mna.hkr.se](http://www.mna.hkr.se)
