

FROM THE EDITORS

WELCOME TO NORDiNA'S SYMPOSIUM ISSUE!

We are happy to present this issue of our Nordic journal NorDiNa, as a symposium issue. The Nordic Research Symposium on Science Education held in Linköping in June 2011 was a great event that gathered colleagues mainly from Nordic countries together for sharing and discussing research results, perspectives and development in science education.

Ragnhild Löfgren, Glenn Hultman and Jan Schoultz from the organizing committee in Linköping are guest editors for this issue.

We are grateful to the organizing committee for their hospitality and their excellent organisation of the symposium, and for preparing this issue of NorDiNa.
Enjoy your read!
